Kristen Meghan Kelly now I'm wondering what potential job opportunities will be in that office. Maybe I'll finally get a job working for an awesome boss. 😏😏😏

**Doc Daniel** if it was her responsibility to stop the spread WHY did she ignore all the experts in the field of environmental toxicology that are subject matter experts on masks and air flow? She ignored the right of parents, of children... Ignored those with special needs like my son who could not mask and made him a second class citizen. She was on a power trip when handed down her marching orders from a tyrannical governor. She failed not only to do her job but violated the Michigan constitution

tyrannical governor. She failed not only to do her job but violated the Michigan constitution many times over. None of this is slander but are the cold hard facts. Her reign is over and I know who her replacement will be.

Christians are called to not promote unity with evil but to expose it. This masking and coercion to take an experimental injection is EVIL. If you think the hell I've gone thru fighting this evil is fun or easy you clearly don't know me, my son, and are out of touch with the many who suffered during these last two years. Gotten all

Gotten all your boosters yet? Masking for monkeypox even though it's not airborne? Lisa would recommend you do.

**Linda Stapula Kreft Bullard** they don't take office until January so nope 😞 But I see more "retirement" announcements coming in the future!

**Rachel Bosscher-Atwood** ours 'retired' just recently. I wished they had fired her, but they were cowards.

Rachel Bosscher-Atwood yes, but would have been WAY more satisfying to fire her! After everything she put the people of Ottawa County through...
