

Video of Joe Moss from 11-16-2021

At 4:15:

"It is a procedural challenge to the way the Ottawa County Health Department and Board of Commissioners have implemented their mask mandate for little kids...The mask mandate that the county has issued is unlawful because they did not follow the proper procedure when they issued it. Who would guess government not following proper procedure?...The real problem is number two, the health department is issuing regulations without the approval of the board of commissioners, the local governing entity. They're issuing them however they want, whenever they want, for whatever reason they want. And, at a high level, the lawsuit is challenging that a single, unelected, unaccountable, administrative official cannot rule 300,000 people in the county."
